Tribal Family Navigator Project Retreats

SUPPORT TRIBAL FAMILIES THAT INCLUDE INDIVIDUALS WITH DISABILITIES

All too often, the services intended to support all individuals with disabilities aren't culturally responsive. That's where the Tribal Family Navigator Project comes in. In partnership with the Ho-Chunk Nation, LOV Inc. has developed a series of educational and family support events. During these events, the entire family attends, with children and youth enjoying fun activities, giving parents/caregivers dedicated time to address their most pressing concerns for their loved one and get connected to services, supports, and resources. With special weekend-long retreats as well as individual consultations, this project serves more than fifty families.

Your sponsorship directly supports families to be able to attend at no cost.
